TF 36EL EBC

A high-performance, energy-efficient, commercial heating fan, designed to maximise the throw of warm air to its given environment. The TF 36EL one of the most powerful heaters in our range. Featuring two power settings; 18kW / 36kW, the TF 36EL is able to maintain a constant temperature in areas up to 600m² through a sheet metal air distributor that spreads the air in 360 degrees of direction. Robust, practical and lightweight the TF 36EL is constructed with galvanised sheet steel and finished with a corrosion-resistant powder coating, making it easy to maintain and reposition when needed. Operated through a user-friendly digital control panel mounted on the front of the machine, allowing you to easily change the temperature and fan speed of the unit.

TF 36EL is the ideal heating unit for use in large open areas such as constructions sites, industrial areas, event spaces, warehouses, retail shops, workshops, and similar areas.
